2.6 Biocomposite Small Joint Anchors

- Bio-composite (70% PLGA+30% β -TCP) material use
- Biocompatible, absorbable and osteoconductive material
- Anchor Size : 2.6 x 10.0
- Needle Size : 1/2 Taper point($\varnothing$ 1.0, 18mm)
- Drill Bit Size : $\varnothing$ 2.1

2.3 PEEK Small Joint Anchors

- Peek anchor made of transparent to X-ray
- Applying whole screw shape for strong fixation power
- Anchor Size : 2.3 x 8.0
- Needle Size : 1/2 Taper point($\varnothing$ 1.0, 18mm)
- Drill Bit Size : $\varnothing$ 1.8

1.5 All Suture Small Joint Anchors

- Rapid recovery by minimizing tissue damage
- Minimal size, less fracture
- Anchor Size : 1.5 x 10.0
- Needle Size : 1/2 Taper point($\varnothing$ 1.0, 18mm)
- Drill Bit Size : $\varnothing$ 1.6
