

SISTEMA DE ANCLAJE MEDIAL

ÁNGULO
VARIABLE

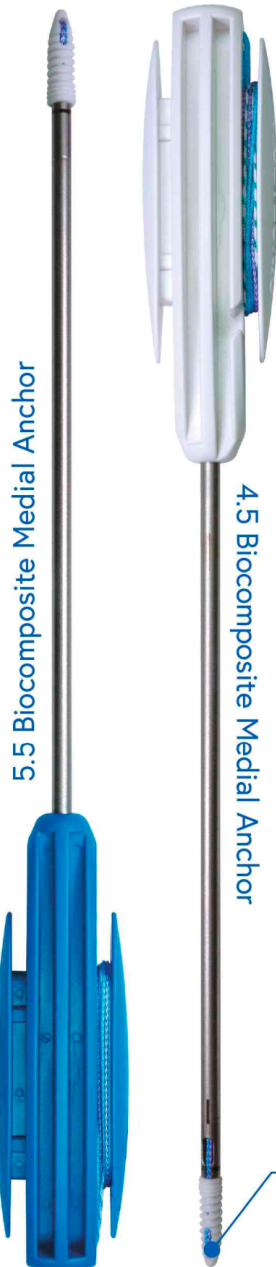

DISEÑO
ANATÓMICO

ALTA
RESISTENCIA

Biocomposite Medial

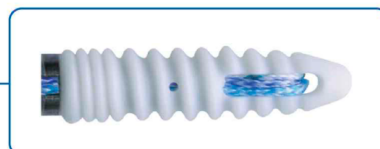

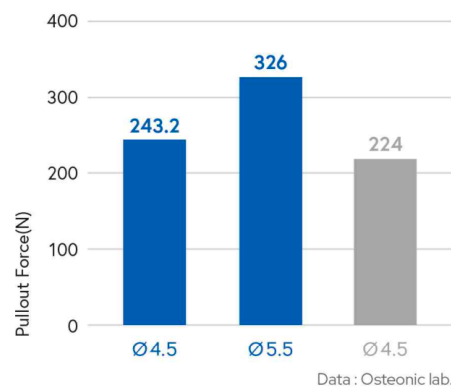

I Features

- High tensile in cortical bone with double pitch thread design
- Applying whole screw shape for strong fixation power
- Biocomposite material is Bio-compatible and absorbable

Anchor Size: Ø4.5 X 18mm,
Ø5.5 X 19.5mm

I Pull-out strength

ÁNGULO

Tecnología para una vida sin límites

Healmax Medial

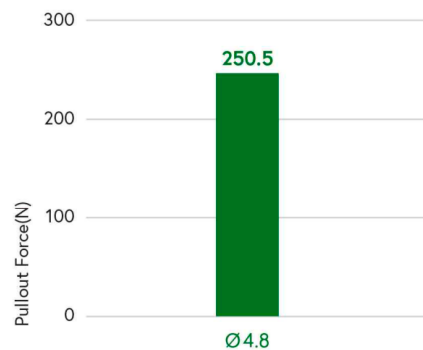

I Features

- Open fenestration design of anchor for rapid bone growth
- Minimal size, various options
- BioComposite Material use
- Biocomposite material is Bio-compatible and absorbable

Anchor Size: Ø4.8X 16mm

I Pull-out strength

Data : Osteonic lab.

ALTA
RESISTENCIA

Suture wing Medial

I Features

- Self-punching option
- Minimal size, less fracture
- Rapid recovery by minimizing tissue damage

Anchor Size: Ø2.8

I Pull-out strength

Metal Medial

I Features

- Self-punching option
- Strong, rigid fixation

Anchor Size

Ø4.5 X 14mm,
Ø5.5 X 18mm
